Respiratory protection headtops. Fully integrated comfort.

3M™ Versaflo™ M-Series Headtops for Powered and Supplied Air Respirators

Complete your 3M™ Versaflo™ powered air respirator system with dependable headtops.

Lightweight, compact and easy to maintain, 3M™ Versaflo™ M-Series headtops can help protect your workers from a variety of respiratory and impact hazards while maintaining comfort.

Easy to breathe.

User can adjust airflow distribution to their liking, giving control over their comfort.

Easy to adjust.

Ratchet suspension allows users to quickly adjust tightness to their preference.

Easy to see.

Excellent peripheral and downward vision, with coated visor option to offer chemical and scratch resistance.

Easy to maintain.

Removable parts for cleaning, maintenance and replacement.

Designed for comfort. Powered by innovation.

We developed the Versaflo™ powered air respirator system and M-Series headtops to deliver the safety you need, with the comfort and ease you've been looking for.

Comfort

Lightweight design and six-point textile strap suspension manages weight distribution for user comfort.*

Ease

Easy to buy, easy to use, easy to maintain, M-series headtops were specifically designed to work together with your Versaflo™ respiratory protection system.

Versatility

Use in a variety of industries and environments with numerous customisation offerings including face seals, shrouds, peel-offs, radiant heat kits, hearing protection and more.

Find the right fit for your environment.

From faceshields to heavy-duty helmets, you have access to a full range of protective 3M™ Versaflo™ M-Series headtops that can help you keep your workers safe and comfortable, even in tough environments.

*When used with 3M™ Versaflo™ Powered Air Turbos.

*APF= Assigned Protection Factor (for further information on APFs see HSE document HSG53)

**When fitted with approved 3M™ Peltor™ Earmuffs. Size designation limitations may apply. See specific M-Series datasheet for more information.

Adapt to your environment. Easily.

The 3M™ Versaflo™ M-Series is simple to customize to fit the challenges you encounter. From metalworking to glass manufacturing, and a range of noisy environments, you can help ensure protection and comfort in a wide variety of workplaces.

Handle the heat.

Radiant Heat Accessories are designed to be modular, so you can customise coverage levels for your environment.

Robust and durable.

Withstand the harsh environments experienced in the metal production industry.

Integrate seamlessly.

Use with select M-Series helmets, which are compatible with a wide variety of 3M air sources.

Gold visor.

Gold over-visor helps protect against UV/IR and sparks or splashes.

Extended use.

Optional Breathing Tube Radiant Heat Cover BT-927 helps extend the life of your breathing tube.

Stay connected.

Integrated hearing solution.

Hands free communication solutions available through Voice Operated Transmission (VOX) functionality on certain supported headset models.

Connection.

Connects via the Z3AF Helmet attachment which are included with the Microphone kit.

Built-in microphones.

Noise Cancelling Microphone for high noise environments.

Available in 2 options, dynamic and electret.

3 adjustment points to allow fit to a range of head sizes.

Can be fitted to any Versaflo™ M-300 helmet with a simple snap fit connection.

Add value. Choose to customise.

Make 3M™ Versaflo™ M-Series your own with versatile accessories that can help adapt the headtop to your particular environment.

Visors.

M-925 uncoated visor option available for molten metal splash applications. Extend visor life with peel offs (M-928) or add a shaded over visor combining M-961 and M-967.

▶ M-925

▶ M-961 & M-967

Breathing Tubes.

Deliver the powered airflow you need for your application through breathing tubes varying from light to heavy duty.

Breathing Tube	Description
 BT-20S	Short Lightweight Breathing Tube
 BT-20L	Long Lightweight Breathing Tube
 BT-30	Length Adjusting Breathing Tube
 BT-40	Heavy Duty Rubber Breathing Tube

Additional Integrated Versatility.

Explore further options from 3M that can help offer protection from flames and sparks, splashes, noise and more, to help handle the environments you encounter.

Shroud	Type
 M-447	Flame Resistant
 M-448	High Durability

Face Seal	Type
 M-935	Standard

 M-937	Flame Resistant

Cover	Protection
 M-976	Paint Spray & Powder Coating
Ear Muffs*	Protection
 M-985	Hearing

*Additional hearing protection available. See M-Series Datasheet for more information.

Find the perfect system for your application.

We want every step of the process to be simple for you. Our Starter Kit bundles together turbos, batteries, belts and other common components, but allows you to choose the headtop and accessories right for your job.

3M™ Starter-Kit		
		
▶ TR-315UK+	▶ TR-619UK	▶ TR-819UK

For some of the most common applications, we've collected the most common components into convenient bundles.

Painter's Kit

Take advantage of greater mobility in paint booths with the new 3M standard in intrinsically safe protection: The Versaflo™ TR-800 Paint Spray Kit.

Heavy Industry

For use in rugged industrial environments like demolition, grinding, metal finishing and casting.

Want to customise it all?

Keep reading to see how to assemble your Versaflo™ Powered Air Respirator System piece by piece.
