

SS-ERB-LV ELECTRICAL RESCUE KIT

The SS-ERB-LV Low Voltage Electrical Rescue Kit includes:

1. CPR Sign
2. SGP Glove Storage Box
3. SG-50 T10 Class 0 Sofamel Dielectric Gloves
4. F/G Rod and Phase Check LV Detector
5. DEK3-H-1 Class 3 Insulating Matting - working voltage up to 26kV
6. Sofamel BS-45 Rescue Pole 1.75 m 45kV and brackets

We can also design and supply customised wall mounted or cabinet style LV and MV Electrical Rescue Kits. These kits can be tailored at time of order to your specific requirements and can include your company logo if necessary. All components are supplied to relevant IEC Standards. All boards include a 'shadow board effect' indicating the location of each safety device.
