

Optional Steel Toecap

Cold Insulation

Waterproof

Oil Resistant

Optional Steel Midsole

Anti-Static

Non-Slip Sole

Shock Absorbing Heel

Non-Abrasion Sole

What is a PU Wellington?

Polyurethane (PU) Wellingtons have higher abrasion and durability rates than PVC Wellingtons. They are more resistant to oils, fats, manure, acid & chemicals than PVC, which means they have wider usage across different sectors. Their increased flexibility results in higher comfort levels and means they can be worn for longer periods. PU is lighter than PVC and has better insulation properties, allowing it to withstand lower temperatures than PVC. On average, PU Wellingtons have a lifespan 3 times that of their PVC counterparts.

TECHNO PU S4 GREEN

MJS Code: FTTWS4G

TECHNO PU S4 WHITE

MJS Code: FTTWS4W

Extra light
energizes your feet

Flexible soft touch material
perfect fit

More slip resistance
better grip

Self Cleaning Sole
self cleaning sole making it more resistant to the pressure of your work environment

Thermo-insulating
warm feet guaranteed

Durable
lasts longer

TECHNO PU S4 BLUE

MJS Code: FTTWS4B

TECHNO PU S4 YELLOW

MJS Code: FTTWS4Y

PU Self Cleaning Sole

Anti-Bacterial Comfort Footbed as standard

Sole PU Self Cleaning Sole **Size Standard** IRL 3-14, EU 36-49

Standard ENISO 20345:2011 S4 **Standard** S4 SRC CI

Polyurethane, Lightweight, Wide Fitting Wellington with Steel Toe-Cap. Excellent Thermal Insulation. High Slip Resistance provided by Self Cleaning sole design which ensures debris cannot lodge between the grooves.

Why choose a Techno PU Wellington from MJ Scannell?

- Techno / MJS co-operation ensures a quality product from an established manufacturer & second to none service & support
- Created using DESMA PU Injection Machines & High Quality BASF PU material
- Selection of soles & styles to meet environment & usage requirements
- Comfortable & wide-fitting – All options include a high-quality Footbed
- Competitively priced

SLIP RESISTANCE

- Footwear marked "SRC" has been tested in accordance with ENISO 20345:2011
- The SRC rating is the maximum anti-slip rating for safety footwear.
- All Techno PU Wellingtons offered by MJ Scannell Safety are SRC rated
- Footwear will offer some reduction to the risks of slipping, it will not remove the risk altogether. Extra care should be taken in highly slippery environments.

S4 200 joule toecap protection. All Rubber or Polymeric footwear with Anti-Static properties, resistant to fuel oil, energy absorption of seat region & closed seat region.

S5 As S4 standard plus Penetration resistance.

O4 Class 2 Occupational footwear with Energy Absorption & Anti-Static properties.

CI Insulation against Cold. Rated to -30°C
